## Free Sandbags During "Flood Watch"

Winter here on the South Coast means rain. Occasionally, heavy storms can cause flooding. When the National Weather Service issues a "Flood Watch," the City of Santa Barbara offers free sand and free bags for residents.

During a "Flood Watch," sand and bags are available on a first-come, first-served basis at the City Annex Yard, 401 East Yanonali Street in downtown Santa Barbara. The limit is 20 sandbags per trip. City crews will provide residents with sand and bags to help protect private property under storm emergency conditions of heavy rain and runoff. The city does not provide the labor to fill, load, or transport the bags. Residents should bring their own gloves and shovels to fill the bags they need.

In non-emergency situations, sandbags can be obtained from your local home improvement or building supply store.

Protection of private property begins prior to storm events – with regular, preventive maintenance of drainage facilities on your property. To report problems with facilities maintenance by the City of Santa Barbara, call (805) 564-5458. If public safety is in immediate danger, dial 9-1-1.

**Remember! Free sand and bags are issued by the city only during local "Flood Watch" conditions.**

For information, call (805) 564-5413; or visit [http://www.ci.santa-barbara.ca.us/public\\_information/](http://www.ci.santa-barbara.ca.us/public_information/) for the city's Sandbag Policy.

## In the Works

### Sheffield Reservoir Construction Update

Progress continues on final-phase work that began in November 2003 for the Sheffield Water Quality Project.

The project will construct two, 6.5 million gallon underground reservoirs to replace the existing open reservoir now being demolished. Two temporary, 1.5 million gallon above-ground tanks currently in place will provide service during construction.

The site will eventually become a 23-acre landscaped open space with hiking trails, and more than 500 new trees.

## ELECTRONICS COLLECTION AND RECYCLING DAY IS MARCH 6
